Omschrijving functie

Sopra Steria Group, a major player in consulting, technology services and software publishing in Europe, assists its clients in the successful transformation of their business and information systems. By combining value and innovation in the solutions proposed, and delivering utmost quality and performance in the services provided, Sopra Steria Group positioned itself as a preferred partner for major companies and organizations; especially those looking for the best use of digital technology for their development and competitiveness. The Group has over 40,000 employees and generated a turnover of over 3.7 billion Euros in 2016. For more information, find us on [www.soprasteria.com](http://www.soprasteria.com).

Sopra Steria is looking for “Junior Developers” in order to strengthen its Domestic Market Business Unit based in Brussels.

Your Mission:

As a front end developer, you will participate to the development and maintenance of high quality software using the JEE platform standards. You will be on boarded in Sopra Steria teams at client premises and work on banking front-end projects.

Your open mindset, analytical mind and solid knowledge of object oriented concepts enable you to understand business analysis and software architectures documents. Focused on quality and efficiency, you will contribute to the continuous improvement process of our software factory. You report your progresses and the risks to the Project Manager.

Your Profile:

- You have a Bachelor or a Master degree in Computer Science or equivalent experience.
- A first working experience or strong interest in Java technologies.
- You are open-minded, keen on learning new technologies, problem-solver, with good
communication skills.
- You are flexible, pro-active, structured and quality oriented
- Team spirit is a strong requirement.
- You speak French or Dutch and have a good level in English.

Your knowledge/experience:

- Front end web development experience using Javascript, Jquery, AngularJs, HTML5, CSS is a strong asset
- You have a good understanding of OO Design, Object Oriented programming and UML notation.
- You have knowledge in Java, J2EE, Spring, Hibernate, XML, EAI, JMS, JSF, Web Services
- Knowledge of methodologies (RUP, Agile, Scrum, ...) is an asset
- The knowledge of SQL (database DB2) is an asset

We Offer:

We offer the opportunity to work in a fast growing and dynamic team on challenging national and international projects in different industries. We also offer the opportunity to continuously deepen your knowledge and to further develop your personal competencies.

If you want to boost your career and join a growing European leading IT services company, do not hesitate to check this opportunity and send your resume to jobs.benelux@soprasteria.com
